

ORANGE BLOSSOM LODGE NO. 80

June 2022 Trestleboard

To be distributed to members of Orange Blossom Lodge No. 80 and Officers of the 16th Masonic District.

From the East

My Brothers,

First of all, I hope that you and your families are in good health. We have arrived at the midpoint of our Masonic year. In retrospect, the last six months have been active and very exciting for our lodge.

Among the things we have accomplished so far:

- Participated in the Osceola County Fair, as we do every year
- Had not just one, but two Entered Apprentice degrees with a total of 11 new Brothers
- Gave our new Master Masons their Bibles and aprons
- Began the mural project
- Attended the 193rd Grand Lodge session

There is much more to do in the coming months before we can close the year:

- Golf Tournament
- Building and technology improvements
- Fellowcraft and Master Mason degrees
- The social event I've been wanting to do for a while will happen soon
- Managing two precincts for the midterm elections
- We will have our traditional Fourth of July food delivery for our community's first responders
- Our Annual Steak Dinner honoring the Grand Master of Florida
- The Annual Island Master Mason Degree
- A widows and past masters' program
- Cornerstone dedication

The most important task that we have, in my opinion, is to continue to impart valuable education at every stated meeting. Our newly-installed Grand Master M.W. Robert Lambert is continuing the programs from last year with a special emphasis on our esoteric work. This is precisely what differentiate our Fraternity from all others.

It was an honor to represent all of you at the Grand Lodge session. My congratulations to R.W. Jay Cebollero for being appointed our District Deputy Grand Master. Our Senior Warden Bro. Sam Ashley was once again appointed a District Committeeman. Congratulations!

In closing, thank you for all you do for our lodge and for making it one of the fastest growing and most dynamic of our district. I'm proud to serve Orange Blossom Lodge and I'm looking forward to the next six months!

Fraternally,

Manny Lozada
Worshipful Master

From the West

My brothers,

Have you seen the mural on the side of our lodge building? If not, you are missing out. Kudos to W:. Lozada and all who had a hand in making this vision come to reality.

Also, it is great to see brothers actively thinking about charity initiatives we can be involved with. We recently approved for two schools to receive a donation from our lodge. One donation will be to a local middle school's Future Farmers of America chapter (FFA) and the other will be to a local high school band.

As always, great things are happening in our lodge, but they will always be better when you are with us.

In brotherly love,

-Sam

Fee covers:
Cart & range
balls, snacks,
drinks, lunch, &
prizes

Registration:
7:00am
Shotgun Start:
8:00am

Format:
Scramble

"I have tip that take five
strokes off anyone's game.
It's called an eraser"

~Arnold Palmer

In the Middle Chamber lecture, a Mason is introduced to the Winding Staircase, from which a Mason learns Geometry, which proves the wonderful properties of nature. A Mason takes the Winding Stairs “to curiously trace nature through her various windings to her most concealed recesses.” Further, his contemplation of nature will allow him to be conducted through the “intricate *windings*” of his “mortal state.”

The Winding Staircase represents the Golden Ratio or ϕ (phi). Geometry gives us ratios and proportions, offering us a perspective on the physical world. Phi, the Golden Ratio, the Fibonacci Sequence, and many other concepts define the cosmos.

John Michael Greer stated, “In ancient, medieval, and Renaissance times, geometrical forms and relationships were seen as an expression of the deep, archetypal structure of reality, and students of geometry were taught to experience geometric processes as the unfolding, in space and time, of spiritual realities.”

The Golden Ratio can be seen in the spirals of rose petals, nautilus shells, DNA, and the proportions of the human body. The proportions of the Golden Rectangle, the most pleasing proportions to the human eye, are seen in art and architecture (as in the Greek temple ruins pictured at left on the facing page). The Golden Rectangle, or Spiral, can be described by a sequence of numbers known as the Fibonacci series. In the Fibonacci sequence, each number in the sequence is the sum of the two numbers that precede it. So, the sequence goes: 0, 1, 1, 2, 3, 5, 8, 13, 21, 34, and so on. Using the ratios of pairs of numbers in the Fibonacci sequence, as the numbers increase, the value of that ratio approaches that of the Golden Ratio, 1.6180339887498948482....
